PROFESSIONAL SUMMARY

Full-stack developer with 1+ year of production experience building MERN stack applications and automating business workflows in Zoho CRM. Delivered end-to-end systems — from responsive React frontends to Node/Express APIs and MongoDB backends — across travel management and e-commerce domains. Strong on clean architecture, REST API design, Git-based version control workflows, and taking features from zero to deployment.

WORK EXPERIENCE

Junior Engineer- Technology

Normality Technologies Private Limited — Oct 2025 - Present

MERN Stack Corporate Website | MyThree

- Built a responsive corporate website frontend using React.js and Tailwind CSS, creating reusable UI components and ensuring clean design, responsiveness, and performance optimization.

Zoho Commerce – E-commerce Platform | MyThree Farms

- Developed and customized an e-commerce platform using Zoho Commerce, handling product management, pricing, inventory, payment integration, order workflows, UI enhancements, and deployment support.

Travel Management System | Zoho CRM

- Developed and automated an end-to-end Travel Management System in Zoho CRM using Client Scripts, Blueprints, Workflows, and Schedules to automate trip stages, vehicle and driver allocation, validations, record locking, and real-time transport operations, improving efficiency and reducing manual effort.

IT Solution Intern

ICT Academy of Kerala — Sep 2025

- Initiated development of a Security Pass Allocation system using the MERN stack, focusing on project setup, frontend structure, and basic application workflow design.

Junior Web Developer Intern (Mern Stack)

Ladder7 Nextstep Solutions — June 2025 - Sep 2025

- Developed responsive, interactive UIs using React, Tailwind CSS, and dynamic data rendering with components and hooks.

Business Development Executive
Intrainz Innovations June 2024 -Dec 2024

- Fostered client relationships, collaborated with cross-functional teams to align business and customer needs, and promoted open communication and adaptability for team success.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript , React.js, Bootstrap, Figma
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB
- **Tools & Platforms:** Git, GitHub, Postman
- **Additional:** Basics of Machine Learning, Electronic Circuitry, Marketing Management

---

EDUCATION

B.Tech Applied Electronics And Instrumentation Engineering
(Minor- Computer Science)
LBS INSTITUTE OF TECHNOLOGY FOR WOMEN,POOJAPPURA CGPA:7.9
2020-2024

PROJECTS

ICTAK Learn Sphere (Learning Platform)

- Frontend: React.js, Tailwind CSS
- Backend: Node.js, Express.js, MongoDB

Built a full-stack MERN role-based learning platform to explore alumni datasets and related projects in DSA, AI/ML, and Deep Learning, featuring Multer-based file uploads, dataset previews, analytics, user activity tracking, email notifications, and a responsive Tailwind CSS,UI designed in Figma, with Git/GitHub version control.

TRAVYNCE APP (Travel Guide)

- Frontend: React.js, Material UI & Bootstrap
- Backend: Node.js, Express.js, MongoDB

Built a full-stack travel guide web app using the MERN stack, focused on exploring Thiruvananthapuram's tourist spots, local food, and culture. Includes user reviews, admin control panel, and dynamic content management for places and restaurants.

FAKE NEWS DETECTION

The project mainly focuses on training machine learning algorithms by integrating datasets containing both genuine and False news articles.

AUTOMATED PATIENT MONITORING AND CARE ASSISTANCE

Developed an Automated IV and Patient Monitoring System to track IV fluid levels, heart rate, and blood oxygen in real time via a mobile app, with automated alerts and safety mechanisms to reduce staff workload and enhance patient care.

INTERNSHIPS /CERTIFICATIONS

- **FULL STACK DEVELOPMENT MERN** (March 2025-June2025)
  (ICT Academy of Kerala)

- **MACHINE LEARNING**
